Good Afternoon -

I apologize I just now saw this email. It kicked it into my junk e-mail.

This is in the Franklin Buffer zone, which means that Franklin controls the zoning and what he can and can't do with the property and also how many cars can be on the property. The only time the county would become involved is for actual building permits, but they would still have to go thru Franklin first.

You will need to contact their office @ 736-3631 and speak with Joanna Meyers who is the planner.

If I can be of any other help, please let me know.
