

Existing Layout

Journey Church Planned Layout
3049 Hudson St.

Parking

Hudson St. -->

Most of the existing layout will remain the same. We will remove two of the smaller rooms to open up the lobby area, divide the large room at the northwest corner into two rooms and add a wall on the west end of the auditorium. In the auditorium, we will add a stage walls behind the stage, as well as a tech booth in the back of the room. No structural changes to the exterior of the building, and no changes to the parking lot or the adjacent lot to the north are planned at this time.
