Re: Case EDC 2021-04– G & H Wire/Patch Development

Case EDC 2021-04 – G & H Wire/Patch Development: A request for a 10-year tax abatement on \$3,800,000 in real property investment and a 10-year alternative tax abatement on \$1,165,000 in personal property investment for the build out of their new location. This property is the shell building built as a public/private partnership between the city of Franklin RDC and Runnebohm Construction.

Location: 40 Linville Way, Franklin, IN. 46131

Summary:

- Characteristics of this location:
This is the current shell building sitting on 13 acres in the Franklin Business Park.
- Characteristics of this petitioner:
G & H Wire Company was founded in 1975 and currently resides in Franklin at 2900 Graham Road. The company is a leading provider of clinical solutions for the orthodontic community serving customers in nearly 100 countries. The company manufactures a full line of orthodontic products.

3. Characteristics of this project:

The company will move from its current location to this larger facility allowing for more growth and an increase in employment. They currently employ 134 with an average of \$23.00 an hour and will add an additional 116 with an average hourly wage of \$25.00 an hour.

4. Economic Revitalization Area (ERA):

The property is located in a current ERA designated with resolutions 201-04/05.

5. ERA & Tax Abatements Findings (Real Property):

Indiana Code Section 6-1.1-12.1-3 states that the following findings must be made when considering an ERA designation and the granting of a tax abatement for real property:

- a. Whether the estimate of the value of the development or rehabilitation is reasonable for projects of that nature;
- b. Whether the estimate of the number of individuals who will be employed or whose employment will be retained can be reasonably expected to result from the proposed redevelopment or rehabilitation;
- c. Whether the estimate of annual salaries of those individuals who will be employed or whose employment will be retained can be reasonably expected to result from the proposed redevelopment or rehabilitation;
- d. Whether any other benefits about which information was requested are benefits that can be reasonably expected to result from the proposed redevelopment or rehabilitation; and
- e. Whether the totality of the benefits is sufficient to justify the tax abatement.

6. ERA & Tax Abatements Findings (Personal Property):

Indiana Code Section 6-1.1-12.1-4.5 states that the following findings must be made when considering an ERA designation and the granting of tax abatement for personal property:

- a. Whether the estimate of the cost of new manufacturing equipment is reasonable for equipment of that type;
- b. Whether the estimate of the number of individuals who will be employed or whose employment will be retained can be reasonably expected to result from the installation of new manufacturing equipment;
- c. Whether the estimate of annual salaries of those individuals who will be employed or whose employment will be retained can be reasonably expected to result from the installation of the new manufacturing equipment;
- d. Whether any other benefits about which information was requested are benefits that can be reasonably expected to result from the installation of the new manufacturing equipment; and
- e. Whether the totality of the benefits is sufficient to justify the tax abatement.

7. City of Franklin "Tax Abatement Policy" criteria:

The "Tax Abatement Policy" section of the *City of Franklin Community Investment Incentives Summary* states that the Economic Development Commission shall use certain criteria when considering a request for tax abatement. A comparison of those criteria and this request follows:

- a. *Diversification of Local Occupations*: This project will retain a current Franklin company and the jobs that are located at the current plant. While this does not increase the diversification, it does maintain the current level of diverse jobs in the city.
 - b. *Diversification of Local Employment*: The project will add 116 new jobs as well as retain the current number of employees. This location will also enable the company to increase production which could positively impact the number of new jobs at a later date.
 - c. *Increase in Local Salaries*: The average wage for all industries in Johnson County for 2019 was \$19.09. The average hourly wage in Johnson County for Low/moderate wage is \$12.95 per hour. G & H Wire will pay an average of \$25.00 per hour, above the county average wage.
 - d. *Sustainable Land Use*: This project conforms with the intended use of this property and the purpose of the construction of the shell building.
 - e. *Future Community Investment*: The applicant should share with the EDC their plans for future community investment and they have indicated they are agreeable to the Economic Development Fee of 2% for real property and 5% for personal.
8. *Conformance with the Comprehensive Plan*: The Comprehensive Plan - Future Land Use Plan identifies this property as Industrial Light. Industrial Light zoning permits the following uses: Industrial Uses • contractor's warehouse/storage facility • dry cleaners (commercial) • light industrial assembly & distribution • light industrial processing and distribution • mini-warehouse self-storage facility • research and development facility • warehouse & distribution facility and wholesale facility.
9. Tax Abatement Duration:
The *City of Franklin Community Investment Incentives Summary* provides that longer periods of abatement on real and personal property may be considered for requests of an exceptional nature. The Summary states that development examples of an exceptional nature include projects which:
- a. Create a new plant or product line for an existing manufacturer;
 - b. Creates substantial employment opportunities with higher than average wages;
 - c. Increase substantially property values and the city tax base with minimal impact to city services (police & fire protection, schools, utilities, infrastructure, etc.); and
 - d. Utilize existing public infrastructure (sanitary & storm sewer, roads & streets, drainage facilities, and other utilities).
10. Requested Effective Year:
The petitioner has requested that, if approved, the tax abatement be for the first year taxes are assessed at an increased assessment rate.

Staff Comments:

The Mayor's Office has indicated they are supportive of a tax abatement of 10 years for real property and 10 years for personal property for this project based on the investment amount and the retention of a current Franklin employer. This type of development is what this area was designed to attract and support.

While acting as a strong advocate for using economic incentives to help applicants expand and/or locate in the community, the City of Franklin also strives to enrich the quality of life for its citizens. To that end, the City embraces the use of voluntary economic development fees as allowed under Indiana law (IC 6-1.1-12.1-14). These fees are directed by the City to local nonprofit organizations to bolster their economic development efforts. The fee can be applied on both real and personal property abatements. The fee is collected annually by the County Treasurer as a special assessment on the tax bill and is distributed by the City to the designated economic development nonprofit organization. Typically, 2% is charged on Real Property and 5% is charged on Personal Property. The fee is a percentage of the abatement received. For example, instead of receiving 100% abatement in the first year, the company receives a 95% abatement, with the 5% difference going to support local economic development. More information can be found on the City's website (www.franklin.in.gov) under the Economic Development tab.
