## Memorandum

City of Franklin Economic Development Commission

From: Dana Monson, Community Development Specialist

Date: March 8, 202

Re: Case C 202 -33: Premium Composite Technology North America (PCTNA)now UBE

### **Summary:**

1. On April 20<sup>th</sup>, 2009, the Franklin Common Council passed Resolution No. 2009-02, approving a 10-year tax abatement on real property with a 2% Economic Development Fee and a 10-year tax abatement on personal property with a 5% Economic Development Fee at 2101 Commerce Parkway (formerly Musicland Drive).

2. Actual and estimated benefits, as projected for 2021:

	Estimated on SB-1	Actual in 2021	Difference
Employees	37	28	-9
Salaries	\$2,100,000	\$1,756,105	-\$343,895
Average Hourly Salaries	\$27.29	\$30.15	\$2.86
Real Property Improvements	\$5,350,000	\$5,350,000	\$0
Personal Property Improvements	\$8,630,000	\$14,072,523	\$5,442,523

3. The company indicated they would hire all 37 new employees by the end of 2010. There were 10 employees at the end of 2010, 21 employees by the end of 2011, and 23 employees at the end of 2012. At the end of 2013 they has 45 employees and the average hourly salary was \$7.97 lower than estimated. They explained in 2014 that 18 of the employees are temp to hire in various stages of the hiring process. In 2015, there were 55 employees at an average hourly salary of \$20.94, which is still under SB-1 estimate by \$6.34. In addition to the jobs mentioned above, their parent company has located an additional 4 employees at this location. These 4 employees are not included in the above employment and salary figures. In 2016 there were 55 employees, which exceeds the estimate. They are employed at an average hourly salary of \$23.87 which is less than the SB-1 estimate by \$3.41. In 2017 the number of employees and total salaries exceed the SB-1 estimates, but the hourly wage is \$7.99 less than the estimate. In 2018 the number of employees exceeded the SB-1 estimate, but the hourly salaries were \$6.19 below, which is \$1.80 higher than 2017. In 2019 due to the ending of several programs, PCTNA has reduced working hours from 24/7 to 5 days per week. In 2019 there were 4 lines with only 2 producing material. In 2020 due to Covid and the sale of the company the lines continued to remain with only 2 producing and the staff was reduced to 4 less than anticipated. Wages are also below the stated goal on the SB-1. The company however now has new leadership and the plans are for the new parent company to increase production and add a new line of product which should bring the numbers to the goal of 37 as well as increase wages. In 2021 the

- company became fully operational as UBE and began a new line in the facility. While the number of employees is below estimates, wages have risen significantly.
- 4. The company has met the estimate provided on their SB-1 Form for real property.
- 5. The company was behind schedule on their personal property investment and requested an extended completion date. In 2013 they exceeded their estimate.
- 6. The tax abatements for PCTNA are scheduled to expire in tax year 2023 payable 2024. The final compliance review will take place in 2023.

Ms. Dana Monson, Community Development Specialist Department of Planning & Economic Development 70 E. Monroe Street Franklin, IN 46131

Dear Ms. Monson:

Enclosed please find Form CF-1 (Compliance with Statement of Benefits) regarding compliance with the personal property tax abatements granted to Premium Composite Technology, North America, Inc. in 2009 under Franklin Common Council resolution 2009-02

Premium Composite Technology North America, Inc. has struggled this year to achieve the goals set in our original proposal. Please see the attached Deficiency Statement.

Our production has reduced 2 lines - 24 hours per day, 5 days per week. Previously we had 4 lines 24 hours per day, 5 days per week.

We continue to work hard to exceed the goals set forth in our Tax Abatement application and request that the City of Franklin look favorably upon our activities and grant us an extension of time to be in full compliance with our tax abatement commitments.

Respectfully

Premium Composite Technology North America, Inc.

**Deficiency Statement** 

It has always been the intent of Premium Composite Technology North America, Inc. (PCTNA) to meet or exceed our goals in relation to our Tax Abatement. We have exceeded the investment goals for PCTNA, however due to the impact of COVID-19 we had a reduction in staff by 9 members and fall short of the 37-person target. We currently have 14 open positions that we are working to fill.

In April 2020, Toyota Tsusho Corporation and Toyota Tsusho America, Inc. sold 100% of the shares of PCTNA to Ube Industries, Ltd (UBE). UBE is a Nylon manufacturer and has plans to expand their footprint in the North American market. PCNTA is the first step in expanding into this market. In January 2022, we have officially changed our name to UBE Engineered Composites, Inc.

We have added a new product for UBE that started in October 2020 and will continue to grow this year. We have invested \$1.5 million to modify one of our production lines to fit other new products for UBE. We did not request Tax Abatement for this investment. We are working with customers on the trials from 2019 and 2020 to secure new business as we recover from the COVID-19 Pandemic. As we continue to add new products, our need for additional staff will increase.

It is our desire to request that the city of Franklin look favorably upon our activities and grant us an extension of time to be in full compliance with our tax abatement commitments.
