

## **INVESTMENT POLICY CITY OF FRANKLIN**

### **I. Purpose**

The purpose of this investment policy (the "Policy") is to set forth the investment objectives and parameters for the management of public funds of the City of Franklin (the "City"). This investment policy is designed to safeguard funds on behalf of the City, to assure the availability of funds when needed, and provide a competitive investment return.

### **II. Scope**

This policy applies to the investment of all funds of the City including but not limited to, the general fund, special revenue funds, debt service funds, project funds and trust and agency funds.

The City may consolidate fund balances to increase investment earnings and to increase efficiencies with regard to investment pricing, banking fees and administration. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

### **III. General Objectives**

The primary objectives, in priority order, of investment activities shall be safety, liquidity, and return:

#### *1. Safety*

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital. The objective will be to minimize credit risk and interest rate risk.

a. Credit Risk - The City will minimize credit risk, which is the risk of loss due to the failure of the security issuer or backer, by limiting investments to the types of securities listed in Section VI of this Investment Policy.

b. Interest Rate Risk - The City will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities prior to maturity.

#### *2. Liquidity*

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands. Furthermore, since all possible cash demands cannot be anticipated, a portion of the portfolio may be placed in money market mutual funds or government investment pools which offer same day liquidity for short-term funds.

#### *3. Yield*

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

#### **IV. Standards of Care**

##### *1. Delegation of Authority*

The Clerk-Treasurer, hereinafter referred to as the Investment Officer, shall be responsible to oversee the day-to-day management of the City's investments pursuant to Indiana Code 36-4-10-4.5. Should the City elect to select an outside investment advisor, such advisor or firm must be registered under the Investment Advisor's Act of 1940.

##### *2. Prudence*

The standard of prudence to be used by the Investment Officer shall be the "prudent person" standard and shall be applied in the context of managing all funds of the City. The "prudent person" standard states that, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

##### *3. Ethics and Conflicts of Interest*

The Investment Officer and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. The Investment Officer and employees shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio.

#### **V. Authorized Financial Institutions and Broker/Dealers**

##### *1. Authorized Financial Institutions and Broker/Dealers*

## **VII. Investment Parameters**

### *1. Maximum Maturities*

The City's investments must have a stated final maturity of not more than two years pursuant to IC 5-13-9-5.6. The City may adopt an ordinance, pursuant to IC 5-13-9-5.7, authorizing its Investment Officer to make investments having a stated final maturity that is more than two (2) years but not more than five (5) years after the date of purchase. The total investments of the City with maturities of two (2) to five (5) years outstanding at the time of purchase may not exceed twenty-five percent (25%) of its total portfolio of public funds invested, including balances in transaction accounts. Such ordinance expires on the date on which this Policy expires, which may not exceed four (4) years.

### *2. Competitive Bids*

The Investment Officer or its designee shall obtain competitive bids for investment with financial institutions in accordance with IC 5-13-9-4. The Investment Officer or its designee shall obtain bids from

at least two brokers or financial institutions on all purchases of investment instruments on the secondary market. Overnight sweep investment instruments shall not be subject to this section.
