## **REDEVELOPMENT COMMISSION** **KEY DATES AND ANNUAL REQUIREMENTS**

### **April 15: Report on the Activities of the Redevelopment Commission and Each Allocation Area for the Previous Year (cont'd)**

- The report must include the following for each allocation area:
  - Revenues received
  - Expenses paid
  - Fund balances
  - The amount and maturity date for all outstanding obligations
  - The amount paid on outstanding obligations
  - A list of all of the parcels included in each allocation area including the base assessed value and incremental assessed value for each parcel
- The report must be submitted to the DLGF in an electronic format under IC 5-14-6 (the current mechanism is the Indiana Gateway for Government Units)

### **July 1: Redevelopment Commission Determination of Excess Incremental Assessed Value Pass-Through for the Upcoming Year**

- Notice provided to the overlapping taxing units and to the DLGF (in an electronic format) of the determination of captured assessed value for the subsequent year under IC 36-7-14-39(b)(4) as amended by SEA 567-2015.
  - The Commission must determine the amount of incremental assessed value that will be captured in each allocation area during the subsequent year in order to meet debt service obligations and other purposes as defined in the Plan.
  - The Commission must provide a written notice to the County Auditor, the fiscal body of the entity that established the allocation area and officers of the other taxing units that contain the allocation area. The Commission must also provide the notice to the DLGF in an electronic format. The notice must:
    - state the amount, if any, of excess assessed value that the Commission has determined will be passed through to the overlapping taxing units; or
    - state that the Commission has determined that there is no excess assessed value to be passed through to the overlapping taxing units
  - The Commission may not authorize the pass-through assessed value to the overlapping taxing units if doing so would endanger the ability to make bond payments.
  - If the amount of captured assessed value determined by the Commission is expected to generate more than 200% of the amount necessary to make debt service payments and the amount necessary for “other purposes”, then the Commission must submit its determination to the legislative body of the unit. The legislative body of the unit may then approve or modify the Commission’s determination of captured and pass-through assessed value.

## **REDEVELOPMENT COMMISSION** **KEY DATES AND ANNUAL REQUIREMENTS**

- The County Auditor is required to allocate the passed-through assessed value to the overlapping taxing units as determined by the Commission.

### **Prior to the certification of assessed values (August 1): Neutralization of Base Assessed Values for the Upcoming Year**

- As a part of the process of certifying assessed values, the County Auditor must, for each allocation area, complete the form prescribed by the DLGF to neutralize the effects of the reassessment or trending of real property in the area on the tax increment revenues allocated to the Commission under IC 36-7-14-39(h) and IC 6-1.1-17-1.
  - The adjustments:
    - May not include the effect of phasing in assessed value due to property tax abatements
      - Assessed value increases attributable to the application of an abatement schedule may not be included in the base assessed value of a TIF area
    - May not produce less property tax proceeds allocable to the Commission than would otherwise have been received if the reassessment or trending had not occurred
    - May decrease the base assessed value only to the extent that assessed values in the TIF area have been decreased due to the reassessment or trending
    - Should include the assessed value of residential parcels that are not eligible to be captured for tax increment financing purposes in the base calculation.
