Sheet Title  
Site Location Plan

Sheet No.

C201

15 Civil Sheets

#### NOTES:

- Unless otherwise noted construction materials and procedures shall meet the standards, specifications and requirements of the City of Franklin (CoF), State of Indiana and the utility having jurisdiction.
- All curve radii are measured to the back of curb or face of sidewalk as noted.
- Existing utilities and improvements have been shown schematically for the contractor's convenience only. The information was taken from a survey prepared by others. All existing utilities and improvements may not be shown. It shall be the contractor's responsibility to verify the location(s) and elevation(s) of all utilities and improvements that may be affected prior to construction.
- Match new walk to existing walk.
- Access to the existing lots and house of the Browns is to be maintained at all times. There shall be no disturbance of these lands.
- No wetlands are known to be on the subject property.
- The existing Emergency Generator to be enclosed using the same steel posts and gate sections as used on the Trash Enclosure. The sides of the enclosure shall also match the gate sections.
- Replace the demolished driveway approach with a curb and gutter matching the existing flanking curb and gutter.
- Match to existing pavement.
- Existing Street Light to be relocated. Coordinate with IPL.
- Coordinate relocation of existing overhead electric lines.

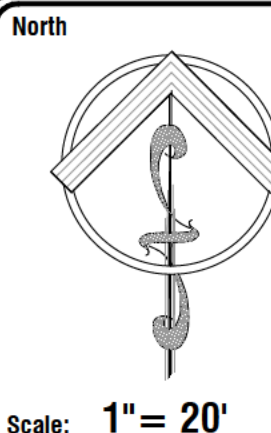

#### Parking Analysis

Existing Parking to remain (State Street Parking Lot)	
Standard Spaces:	11
Handicap Spaces:	2
Proposed Parking (Palmer Street & east side parking)	
Standard Spaces (9' wide x 18' deep):	113
Handicap Spaces (10' wide plus aisles x 18' deep):	5
Total Parking Spaces:	131

#### LEGEND

- (A1) Asphalt Pavement (Light Duty Area):  
(This section taken from Franklin Subdivision Control Ordinance, Section 6.7)  
1 1/2" HMA Surface Course (per INDOT Specifications) on  
3 1/2" HMA Bituminous Binder Course (per INDOT Specifications) on  
8" #53 Crushed Aggregate Base (per INDOT Specifications) on  
Compacted Subgrade (per INDOT Specifications)
- (A2) Asphalt Pavement (Heavy Duty):  
(This section taken from Franklin Subdivision Control Ordinance, Section 6.7)  
1" HMA Surface Course (per INDOT Specifications) on  
2" HMA Bituminous Binder Course (per INDOT Specifications) on  
4" HMA Base Course (per INDOT Specifications) on  
8" #53 Crushed Aggregate Base (per INDOT Specifications) on  
Compacted Subgrade (per INDOT Specifications)  
(The contractor shall core Palmer Street pavement in 3 locations to determine the existing pavement profile. Depending on the existing pavement profile, a variation of this pavement section may be required. This specification is to be used through out the traffic lane areas of Palmer Street). On all other areas denoted as A2 shall use this section.
- (A3) Concrete Pavement (Apron and Approach Area):  
8" fiber reinforced Portland Cement Concrete, 4,000psi (per INDOT Specifications) on  
6" #53 Crushed Aggregate Base (per INDOT Specifications)  
Compacted Subgrade (per INDOT Specifications)
- (B1) Combined Concrete Curb & Gutter (Barrier) (6" vertical curb face)  
(Reference INDOT Standard Drawing No E 605-CCCC-01)
- (C2) Concrete sidewalk (width as noted)  
(See Detail sheet C601)
- (C3) Concrete curb & sidewalk (width as noted)  
(See Detail sheet C601)
- (E1) Handicap Ramp Type 1  
(See Detail sheet C601)
- (E3) Handicap Ramp Type 3  
(See Detail sheet C601)
- (F) Concrete Filled Steel Bollard  
(See Architectural Plan for locations and details)  
(see Trash Enclosure Detail sheet C601)
- (G) 4" wide traffic point
- (G1) Handicap Parking Delineation per Detail  
(See Detail sheet C601)
- (I) AC Condenser & Pad (by others). See MEP Plan for actual locations, size and number of pads.
- (S1) Parking Lot Area Light on steel pole (Employee / Patient / Visitor Parking Lot)  
Lithonia Lighting CSX1 LED 60C 1000 40K TSM HS (height varies)

Project Homeview Health & Rehabilitation Center  
651 S. State Street  
City of Franklin, Johnson County, Indiana  
Sheet Title Site Landscape Plan

Sheet No.  
C401  
of 15 Civil Sheets

All trees shall be 2.5" caliper at planting. All landscape beds shall be mulched with a hardwood bark mulch to at least 2" deep. Shrubs should be allowed to mass and grow naturally without excessive pruning.

NORTH of PALMER ST.  
Parking perimeter: 1 tree and 1 shrub per 80 linear ft along rd - 2 each required; 3 trees and 18 shrubs provided.  
Property interior trees: 3 required; 6 provided.  
Parking lot interior trees: 3 required; 3 provided.

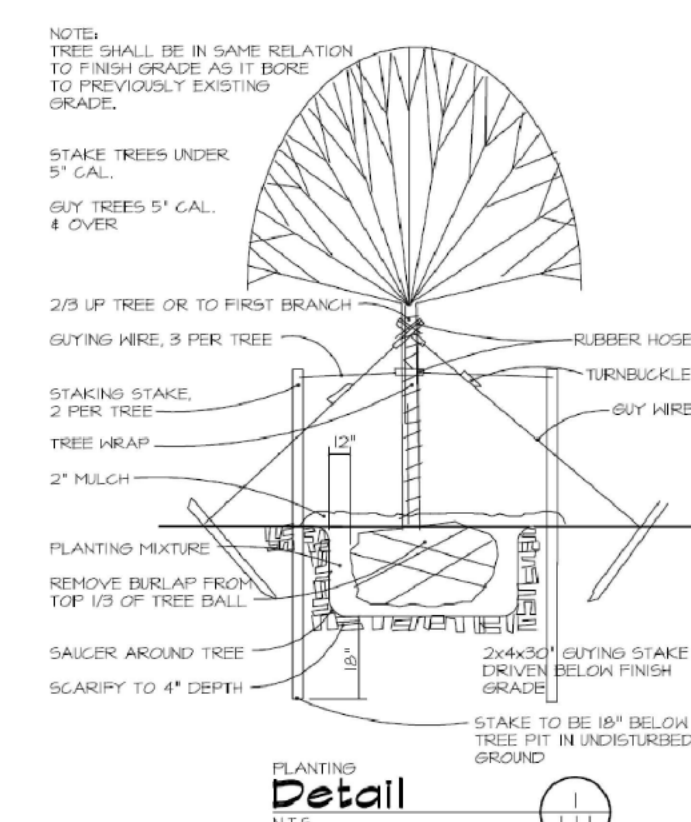

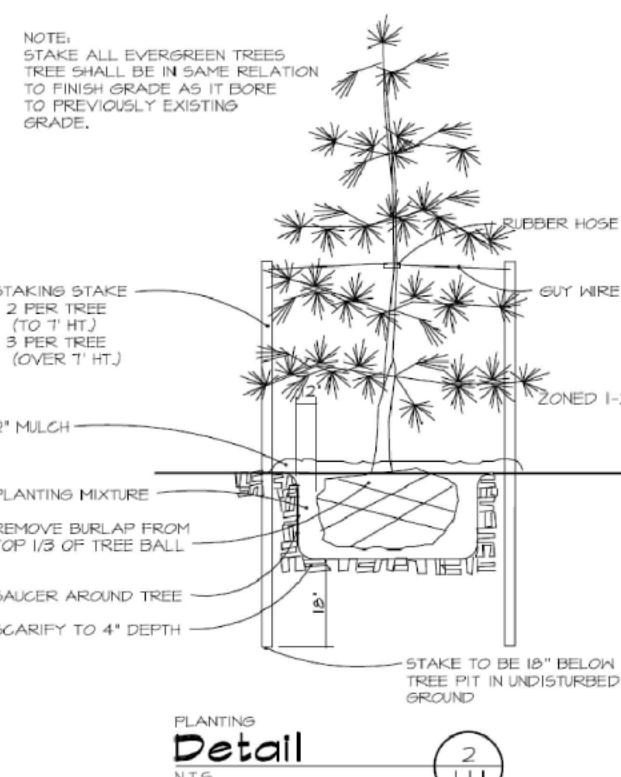

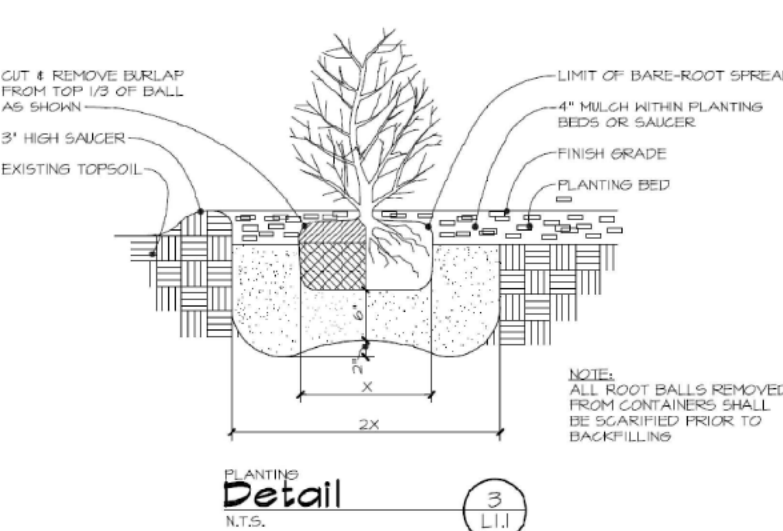

SOUTH of PALMER ST.  
Property interior trees: 13 required; 13 provided.  
Parking lot interior trees: 2 required; 2 provided.

#### NOTES:

All lawn areas and landscape / planting beds shall be irrigated with a system approved by the owner.

All areas not otherwise denoted as landscape or planting beds shall be seeded with a landscaper's grass blend on 4" prepared, fertilized topsoil and covered in straw lawn mulch.

The area inside the fence screening the HVAC equipment shall be covered with 2"-3" of a stone landscape mulch over a weed prevention fabric.

Category	QTY.	ABRV.	Common Name	Botanical Name
