# Staff Report

**To:** Economic Development Commission Members

**From:** Krista Linke, Director

**Date:** October 6, 2016

**Re:** Case EDC 2016-06 – NSK Corporation

---

**Case EDC 2016-06 – NSK Corporation:** A request for a 10-year tax abatement on \$6,625,000 of personal property investment.

**Location:** 3400 Bearing Drive

**Summary:**

1. Characteristics of this location:  
Existing Location – 3400 Bearing Drive

2. Characteristics of this petitioner:  
The NSK Corporation Bearing Plant sells automotive bearing products for the automotive and industrial markets. This includes wheel hub and taper roller bearings. The Franklin Bearing Plant initially started in 1991 as a machining center. In 1993, it expanded, adding grinding and assembly operations for generation hub I, II, III, and taper roller bearings. The Franklin facility includes a distribution center handling incoming raw materials and shipping of finished goods. Corporate support functions, such as sales, marketing, application engineering, customer service, and

administrative/financial functions, are located in Ann Arbor, Michigan. NSK has over 80 years of experience in design, development, and manufacturing of nearly every kind of anti-friction bearing.

3. Characteristics of this project:

NSK has entered into a business contract with a new customer to supply wheel bearings for the passenger car. They will begin production soon. To meet the new customer's demand, NSK will invest \$6,625,000 to update an existing line and add a new line.

4. Economic Revitalization Area (ERA):

This property was designated an ERA by Resolution 2013-20 and confirmed by Resolution 2013-21.

5. Previous Tax Abatement Received:

NSK Corporation has received several previous tax abatements. The currently have two personal property tax abatements. One 10-year Personal Property abatement with a 5% Economic Development Fee through Resolution 2010-19, and another 10-year Personal Property Abatement with a 5% Economic Development Fee through Resolution 2013-20 and 2013-21. NSK Precision America has an additional three current tax abatements, two personal and one real property.

6. ERA & Tax Abatements Findings (Personal Property):

Indiana Code Section 6-1.1-12.1-4.5 states that the following findings must be made when considering an ERA designation and the granting of tax abatement for personal property:

- a. Whether the estimate of the cost of new manufacturing equipment is reasonable for equipment of that type;
- b. Whether the estimate of the number of individuals who will be employed or whose employment will be retained can be reasonably expected to result from the instillation of new manufacturing equipment;
- c. Whether the estimate of annual salaries of those individuals who will be employed or whose employment will be retained can be reasonably expected to result from the installation of the new manufacturing equipment;
- d. Whether any other benefits about which information was requested are benefits that can be reasonably expected to result from the installation of the new manufacturing equipment; and
- e. Whether the totality of the benefits is sufficient to justify the tax abatement.

7. City of Franklin "Tax Abatement Policy" criteria:

The "Tax Abatement Policy" section of the *City of Franklin Community Investment Incentives Summary* states that the Economic Development Commission shall use certain criteria when considering a request for tax abatement. A comparison of those criteria and the proposed request follows:

- a. *Diversification of Local Occupations:* In 2014, 12.38% of all jobs in Johnson County were in the manufacturing sector. There were 5,420 manufacturing employees in Johnson County and 1,116 of them were machine fabricated metal product manufacturing employees. NSK Corporation will retain 12 employees and add 1 additional employee as a result of this expansion.

- b. *Diversification of Local Manufacturing Employment:* According to the U.S. Census Bureau, 2014 County Business Patterns, fabricated metal manufacturing employees make up 20.6% of the manufacturing jobs in Johnson County. According to the United States Census Bureau, there were 128 manufacturing establishments in Johnson County in 2014, and 27 of them were fabricated metal product manufacturing establishments.
- c. *Increase in Local Salaries:* The average wage for all industries in Johnson County for 2014 was \$17.02. The average hourly wage in Johnson County for manufacturing in 2014 was \$23.18 per hour. The average hourly wage (without benefits) for the 12 jobs being retained is \$16.50 (\$411,840 divided by 12 jobs, divided by 52 weeks, divided by 40 hours per week). The average hourly wage for the 1 new job being created is \$27.50 (\$57,200 divided by 1 job, divided by 52 weeks, divided by 40 hours per week).
- d. *Sustainable Land Use:* The petitioner proposes to make this investment at their current location.
- e. *Future Community Investment:* The Company has indicated on their applications that they are agreeable to a 5% Economic Development Fee on Personal Property.
- f. *Conformance with the Comprehensive Plan:* The Comprehensive Plan - Future Land Use Plan identifies this property as Manufacturing. Manufacturing areas are intended to accommodate large scale businesses that produce finished products from raw materials. Uses in these areas may include product manufacturers as well as any related warehousing and offices. Manufacturing areas may include facilities that involve emissions or the outdoor storage of materials and finished products. These two factors are the primary distinction between manufacturing areas and light industrial areas.

The property is zoned IG, Industrial: General. The "IG," Industrial: General zoning district is intended to provide locations for general industrial manufacturing, production, assembly, warehousing, research and development facilities, and similar land uses. This district is intended to accommodate a variety of industrial uses in locations and under conditions that minimize land use conflicts. This district should be used to support industrial retention and expansion in Franklin.

8. Tax Abatement Duration:

The *City of Franklin Community Investment Incentives Summary* provides that longer periods of abatement on real and personal property may be considered for requests of an exceptional nature. The Summary states that development examples of an exceptional nature include projects which:

- a. Create a new plant or product line for an existing manufacturer;
- b. Creates substantial employment opportunities with higher than average wages;
- c. Increase substantially property values and the city tax base with minimal impact to city services (police & fire protection, schools, utilities, infrastructure, etc.); and
- d. Utilize existing public infrastructure (sanitary & storm sewer, roads & streets, drainage facilities, and other utilities).

9. Requested Effective Year:

The petitioner has requested that, if approved, the tax abatement be effective for the tax year 2017, payable 2018.

**Staff Comments:**

Making use of an existing facility and strengthening the viability of an existing company within the City of Franklin is critical to Franklin's economy. The low number of new jobs and the average hourly salaries of the jobs being retained should be taken into consideration when determining the length of the abatement.

While acting as a strong advocate for using economic incentives to help applicants expand and/or locate in the community, the City of Franklin also strives to enrich the quality of life for its citizens. To that end, the City embraces the use of voluntary economic development fees as allowed under Indiana law (IC 6-1.1-12.1-14). These fees are directed by the City to local nonprofit organizations to bolster their economic development efforts. The fee can be applied on both real and personal property abatements. The fee is collected annually by the County Treasurer as a special assessment on the tax bill and is distributed by the City to the designated economic development nonprofit organization. Typically, 2% is charged on Real Property and 5% is charged on Personal Property. The fee is a percentage of the abatement received. For example, instead of receiving 100% abatement in the first year, the company receives a 95% abatement, with the 5% difference going to support local economic development. More information can be found on the City's website ([www.franklin.in.gov](http://www.franklin.in.gov)) under the Economic Development tab.
