RE: Meijer Franklin Subdivision Replat - Drainage

Dear Ms. Myers and Mr. Underhill:

The drainage plan submitted with this Primary Plat submittal is the original drainage plan that was approved with the Meijer Franklin Subdivision Primary Plat, PC 2015-14 (PP) on 6/23/2015, and the Meijer Site Development Plans, PC 2015-15 (SPR) on 9/30/2015. This drainage plan accounts for the drainage from both Lot 3 and Block 1, which are being replatted with this submittal. The replat does not in any way modify the overall drainage routing or detention as proposed and approved in this drainage plan. Site development plans for Lots 4 and 5 (within Block 1) with specific on-site drainage plans will be submitted separately by others.

Sincerely,

Woolpert, Inc.
