Mr. Orner stated there had been two major leaks in the coolant system

covering a major portion of the building with 2500 gallons of antifreeze, most of the worst damage was in Beeson Hall where it ruined the hardwood floor which had to be replaced at a cost of \$13,000.00. Mr. Orner also stated that the carpet was ruined also, but hopefully some of the damage will be covered by insurance. The second leak filled the office area with antifreeze, and they called a restoration company to dry out the carpet after they were able to remove the antifreeze.
