

# Franklin Railroad Depot Museum Extension 2019

The Franklin Railroad Depot Museum will be adding to their display of Historic Railroad Memorabilia.

We will be adding a circa 1925 Baltimore & Ohio Pullman X4140 Passenger car to our static displays.

The B&O passenger car is a donation from Lord Industries located in Indianapolis, IN.

The original owner of the car, Mr. \_\_\_ purchased and restored the train car in the 1980's it was used for board meetings for his company.

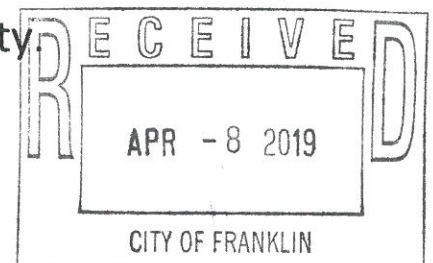

This information has not been handed over as yet.

The railcar will be an extension to the Franklin Railroad Depot Museum that features hundreds of railroad memorabilia items and Franklin railroad history.

The passenger car has seating for visitors to look at historical documents. Authors will be featured with lectures and book signing on topics such as historical depots or railroad history.

Our hope is to educate the young and the old on the railroad history and safety in Franklin and Johnson County.

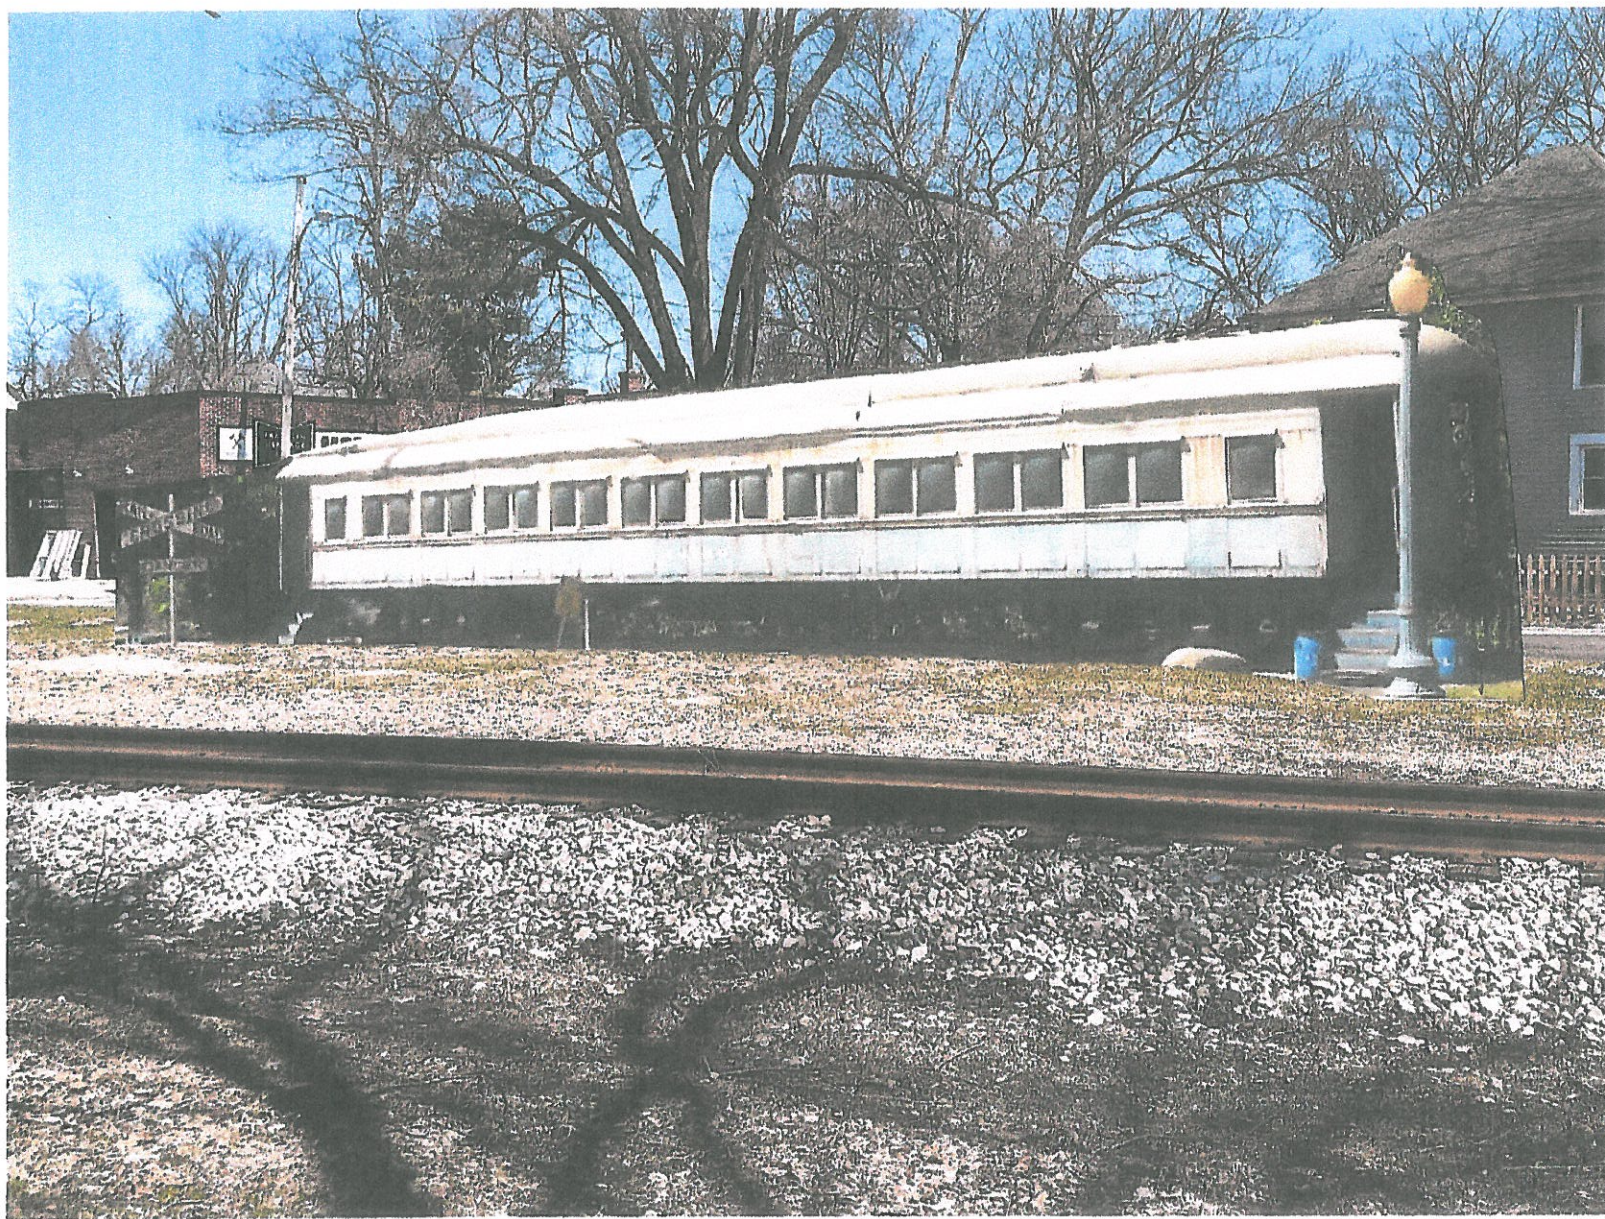

**See Tracks!!!! Think Train!!!**
