Re: Case PC 2019-15 (R): Thompson Rezoning

REQUEST:

Case PC 2019-15 (R)...Thompson Rezoning. A request by T. Thompson Properties, LLC to rezone 26.16 acres located at 3601 N. US 31, which is north of Sloan Drive and east of US 31/Morton Street, from A (Agriculture) and IG (Industrial: General) to MXR (Mixed Use: Regional Center) with the GW-OL (Gateway Overlay) zoning to remain.

ADJACENT PROPERTIES:

Surrounding Zoning:

North: MXC (Mixed Use: Community Center) & GW-OL
IG (Industrial: General)
South: IG (Industrial: General)
East: IG (Industrial: General)
West: MXC (Mixed Use: Community Center) & GW-OL

Surrounding Land Use:

North: Agriculture
South: Agriculture
East: NSK
West: Gateway Services & Church

CURRENT ZONING:

The “A”, Agricultural zoning district is intended to provide locations for agricultural operations and related land uses. This district is further intended to reduce conflicts between residential and agricultural areas with the viability of agricultural operations, and limit development in areas with minimal infrastructure. This district should be used to protect agricultural operations from land uses that are incompatible with the available infrastructure.

The “IG”, Industrial: General zoning district is intended to provide locations for general industrial manufacturing, production, assembly, warehousing, research & development facilities, and similar land uses. This district is intended to accommodate a variety of industrial uses in locations and under conditions that minimize land use conflicts. This district should be used to support industrial retention and expansion in Franklin.

The intent of the Gateway Overlay (GW-OL) district is to require development at the City’s entrances that is aesthetically consistent, responsive to development pressures, and proportional to the area’s traffic management issues.

PROPOSED ZONING:

The “MXR”, Mixed Use: Regional Center zoning district is intended to provide locations for a variety of business and institutional land uses that either serve a regional market, or require convenient access to high-volume transportation routes. This district is intended to permit a mixture of compatible land uses in close proximity to appropriate transportation routes and other necessary infrastructure.

CONSIDERATIONS:

1. T. Thompson Properties, LLC is requesting that 26.16 acres located north of Sloan Drive and east of US 31/Morton Street be rezoned to Mixed Use: Regional Center (MXR) with the Gateway Overlay (GW-OL) to remain in order to plan for future development. See attached map.
2. The subject property is included in a designated Opportunity Zone.
 - a. An Opportunity Zone is an area where new investments, under certain conditions, may be eligible for preferential tax treatment.
 - b. More details may be found on the IRS website at <https://www.irs.gov/newsroom/opportunity-zones-frequently-asked-questions>.
3. The Technical Review Committee reviewed the petition at their September 23, 2019 meeting. All technical review comments have been addressed.
4. The 2013 Franklin Comprehensive Plan, Land Use Plan, identifies the north 22 acres as a Community Activity Center. “Community activity centers area intended as areas of mixed land uses that provide gathering places and goods and services for the entire community. Community activity centers may include churches, schools, community parks, grocery stores, gas stations, shopping centers, offices, banks and restaurants. Community activity centers may also include residences located on the upper floors of otherwise commercial buildings. Community activity centers are generally located along major streets and at prominent intersections where they are readily accessible by people from throughout the community.”

The 2013 Franklin Comprehensive Plan, Land Use Plan, identifies the remaining area as Manufacturing. “Manufacturing areas are intended to accommodate large scale businesses that produce finished products from raw materials. Uses in these areas may include product manufacturers, as well as any related warehousing and offices. Manufacturing areas may include facilities that involve emissions or the outdoor storage of materials and finished products. These two factors are the primary distinction between manufacturing areas and light industrial areas.”

CRITERIA FOR DECISIONS – REZONING:

In taking action on rezoning requests, the Plan Commission shall pay reasonable regard to the decision criteria outlined in Article 11.6 (I) of the City of Franklin Zoning Ordinance.

1. ***Comprehensive Plan: The City of Franklin Comprehensive Plan and any other applicable, adopted planning studies or reports.***

Staff Finding:

Staff finds that the request to rezone the property to MXR with the Gateway Overlay to remain consistent with the Comprehensive Plan as the plan identifies the areas as Community Activity Center.

2. ***Current Conditions: The current conditions and the character of current structures and uses in each district.***

Staff Finding:

The property is located immediately to the south and east of properties currently zoned MXC (Mixed Use: Community Center). In addition, it is important to note that the subject site is located along a major arterial road (US 31).

3. ***Desired Use: The most desirable use for which the land in each district is adapted.***

Staff Finding:

The property is immediately adjacent to other commercial properties and the majority is currently zoned MXC which allows the majority of the same permitted land uses. In addition, the property's proximity to US 31 provides excellent access to a regional transportation route.

4. ***Property Values: The conservation of property values throughout the City of Franklin's planning jurisdiction.***

Staff Finding:

The rezoning request should not negatively affect the property values in the area; however, the development of the property could increase the property values as additional commercial services are provided.

5. ***Responsible Growth: Responsible growth and development.***

Staff Finding:

The proposed rezoning immediately adjacent to existing properties zoned for commercial uses and will provide the City with additional commercially zoned property. The City's current inventory would be expanded which promotes additional growth and expansion of the tax base and provide additional job opportunities for the community.

PLAN COMMISSION ACTION :

In the rezoning process, the Plan Commission has the authority to review the provisions of the Comprehensive Plan and the Zoning Ordinance. Plan Commission action (either *favorable*, *unfavorable*, or *no recommendation*) is a recommendation to the City Council, which takes action on the rezoning petition.

STAFF RECOMMENDATION:

Based on the criteria for decisions above, staff recommends a *Favorable Recommendation* be forwarded to the Franklin City Council of the rezoning request to MXR (Mixed Use: Regional Center) with the GW-OL (Gateway Overlay) zoning to remain.
