Describe Request:			
<p>I would like the 2 ally ways shown below on the GIS map to be paved as that is now the city standard. The first alleyway is not used anymore due to no gravel, houses 262, 268, and 276 would like this to be a functional alleyway again. This would allow us to gain access to the back and place garages or parking areas in our backyard, so we are no longer parking on the street. The second picture is the alleyway leading to the first that is used by other houses on a daily bases but is gravel. This would be a huge benefit to my self as I am currently parking on the street and can only fit two vehicles and will need to be able to fit three soon. One of the neighbors said they will be building a barn style garage if the alley gets put in.</p>
