Re: Special Exception for Johnson County Solid Waste Management Facility

To Board of Zoning and Appeals:

The Johnson County Solid Waste Management District is seeking a special exception in order to build a new facility, which will allow us to improve collection efficiency, while also enhancing the safety of our facility for all citizens and employees, including volunteers.

The district intends to comply with all development standards in the new construction of the facility, while also focusing on creating a net-positive environmental footprint for the new facility. This will include lessening the run-off from our building into the current tile drain.

The proposed facility will be adjacent to the Animal Shelter and Doggie Daycare and will be an appropriate transition of uses and not interfere with adjoining property owners. The building as mentioned above will be aesthetically consistent with adjoining properties. Our current rental space will be vacated, which will free up space for further IL uses in the commercial area.

Respectfully submitted,

Jessie L Biggerman
