

**Johnson County Training Facility Summary Statement:**

The Johnson County Training Facility project will involve the renovation of the existing training building as well as a new building addition off the existing building. The new addition will also include a new access road to the south that will allow for access to the shooting range. An updated storm sewer system as well as an underground detention system will be constructed on the site. A new water service line will be installed along with a new sanitary grinder pump that will replace the existing pump. The site will remain accessible from the existing drive through the Johnson County Jail property off Hospital Road. A new Access Easement will be provided so the City of Franklin will have access to the underground detention system. The site new facility will serve as classroom and VR training space for the Johnson County Sheriffs Department and other law enforcement departments. The shooting range will remain gated and only accessible by members of law enforcement.
