

**PC 2011-08 Buyout Project: South Street Area
Potential Right-of-Way Vacation**

As of March 19, 2012, the City of Franklin has purchased 61 of the 66 properties in the Buyout Project. The majority of these properties are located in the South Street area. See the attached map. The green highlighted properties are those included on the buyout list to be purchased by the city. The city anticipates this area will be an extension of the existing park system.

In order to begin the planning process, the city would like to have the Technical Review Committee review the potential of vacating the red highlighted rights-of-way and removing the hard surface and utilities.
