Subdivision Standards

- A. **General Requirements:** The subdivider shall be responsible for the initial cost of the purchase and installation of all street lights. All street light standards and fixtures shall meet the specifications established by the City Engineer and the appropriate electric utility.
 - 1. **Standard Height & Material:** Street lights shall be pole mounted on standards of non-corrosive metal not to exceed 28 feet in height. Wood and fiberglass mounting poles shall be prohibited.
 - 2. **Decorative Lighting:** The use of decorative street lighting shall be encouraged consistent with the performance standards of the City of Franklin Zoning Ordinance.
- B. **Locations within the Subdivision:** Generally, street lighting shall be provided at all intersections of streets within, and adjacent to, the subdivision and elsewhere as deemed appropriate for public safety by the Planning Director, City Engineer, Plan Commission, and/or Board of Public Works & Safety. The spacing of street lights shall be determined at the discretion of the City Engineer based on the level of illumination provided by the chosen fixture.
- C. **Locations along the Street:** Street lights shall be located in the right of way, adjacent to the street.
